

ICRMP's Risk Management Discount Program

How Can Your Agency Save 5%?

ICRMP offers a way to save money: The Risk Management Discount Program. We provide a discount to members who proactively participate in risk management measures, utilizing online policy review and training, targeted to reduce claims.

Analysis of our claims activity across the membership shows that more than half of the claims are in 2 areas: auto and employment. This curriculum encourages members to do certain risk reducing efforts targeting those high claims areas. This is accomplished by your agency completing basic “best risk management practices” to reduce claims.

This program expands upon existing risk management efforts including in-person training, legal advice and consulting via phone by your Risk Management team. And it adds to those efforts by allowing us to reach more of you more often, delivers consistent training content when you need it and provides verifiable training records to you and us.

To get started or to find out more information, contact ICRMP at intake@icrmp.org or via phone at 208-336-3100. Take advantage of our resources and tools to help manage risk and get a 5% discount. Participate in the Risk Management Discount Program today!
